Home work

Create a GitHub Account

Create a repository for your first web project. You can simply copy index.html if you are new to web development or build any web page if you have prior knowledge of web development

Host the page on GitHub pages and share the GitHub page URL with us

If you submit all the homework before 1 day after the last of Bootcamp, you will receive a participation certificate from 10000Coders. You can add this certificate to your portfolio.

See you in the next class!
